alwodouh.com

A knowledgeable friend, not a law firm

صديق يفهم في العقود، مو مكتب محاماة

Wodouh reads employment, rental, freelance and loan contracts in Saudi Arabia and tells people, in plain Arabic and English, what binds them, what is unusual, and where each point comes from. It also works out what a worker is owed when a job ends.

Our promise: you should never have to take our word for it. Every figure shows its rule, every flag shows its source, and what we could not assess is said out loud.

Calm authority

Precise, short sentences. Verdicts, not lectures.

Warm

Everyday Saudi Arabic, friendly English. We talk to you, not about you.

On your side

Every flag says what it means for you and what to do next.

Who it is for

- An employee reading an offer before signing.
- Someone let go last week, working out what they are owed.
- A tenant, a freelancer, a borrower with a contract in front of them.
- HR teams and brokers reading contracts every week (Wodouh for business).

What we never claim

- We are not a law firm and give no legal representation.
- No guaranteed outcomes, no invented articles, no invented numbers.
- No licence, seal or approval we do not hold.

The lens-check mark

انظر عن قرب، ثم اطمئن

Primary lockup. The mark sits on the leading side: left in English, and still left in Arabic, where the Arabic name leads the text.

How it is built

A magnifying glass whose lens resolves into a check: look closely, then feel sure. Three strokes, rounded caps, no fill.

Clear space and size

Keep clear space equal to the lens radius on every side. Smallest sizes: **24 px** on screen, **8 mm** in print. Below that, use the app icon tile.

App icon

32 px

24 px min

Approved colourways: Teal Ink on Sand · Sand on Teal · Teal Ink (dark) on night. Files: brand/assets/logo-1-lens-check.svg, logo-4-wordmark.svg, app-icon.svg.

Keep it calm and whole

لا تمده، ولا تلونه، ولا تزخرفه

× Stretched

× Off-palette colour

× Busy background

× Rotated

× Shadows, glows, 3D

Never in the Wodouh world

- Law-firm signals: gavels, columns, briefcases, navy and gold.
- Cold fintech: sterile white, harsh gradients, sharp corners, geometric Kufi.
- Alarm: bright red, sirens, ALL-CAPS threats. Risks are explained calmly.
- Emoji as icons. They render differently on every phone and read as chat.

Always

- The mark exactly as drawn, from the SVG files, never redrawn.
- One of the three approved colourways.
- Rounded strokes, generous space, paper calm.
- Arabic and English given equal care.

Dark mode

Teal #46A695

Ink #8FCBBE

Card #212C29

Text #EDE6D8

Night is #0F1513, never pure black. Every pair the app uses passes WCAG AA for its size; the app's own contrast tests enforce it.

Soft naskh, humanist sans

نسخ ناعم، وحروف لاتينية دافئة

ARABIC · NOTO NASKH ARABIC

اقرأ عقدك بثقة

نقرأ العقد كاملاً، ونشرح كل بند بلغة بسيطة، وننبّهك للمخاطر قبل التوقيع: مدة الإشعار، والشرط الجزائي، وبند عدم المنافسة.

Regular 400 for reading, Bold 700 for headings. Never geometric Kufi.

ENGLISH · NUNITO

Read your contract with confidence

We read the whole contract, explain every clause in plain language, and flag the risks before you sign.

Regular 400 to Black 900. Rounded terminals match the rounded strokes of the mark.

The scale: nine sizes, nothing in between

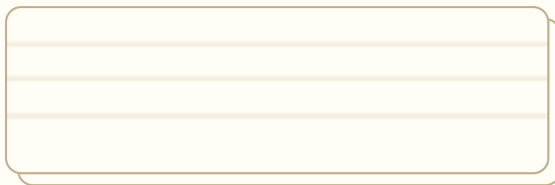

36 24 19 16.5 15 14 13 12 10.5

Sizes in px for screens; the app's type-scale test fails any size outside this list. Figures are written in Western numerals (149, 299) in both languages, so a price never has to be read twice.

Everything is a contract on paper

كل شيء ورقة عقد تقرأها معنا

Ruled sheet + second sheet

Documents sit on ruled paper with a second sheet peeking out behind.

The highlighter

The employee may not work **anywhere in the Kingdom for two years** after the contract ends.

The clause that matters is highlighted, not underlined or bolded.

Stamps, not pills

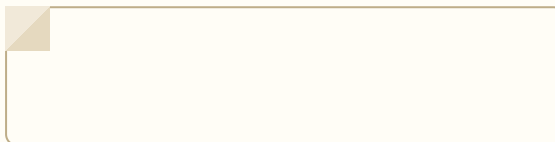

We recommend this

Save 49 SAR

Read before signing

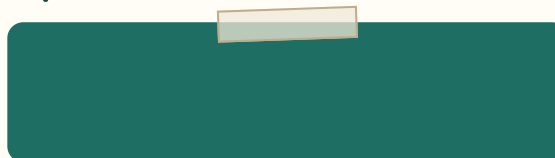

Badges are dashed and slightly turned, like a rubber stamp. Facts about price stay straight.

Folded corner

Index cards for samples, sources and situations.

Tape

Holds the one primary action to the page.

The signature line

Signature

Letters end like real letters: the reader signs, not us.

Line icons, never emoji

أيقونات خطية، بدون إيموجي

24 px grid · 1.7 to 2.2 stroke · rounded caps and joins · no fill · Teal Ink on a soft-teal tile with a paper border. The same rules as the tab bar.

✓ Do

One idea per icon. Pair every icon with a word; icons never stand alone as the only label.

✗ Don't

Emoji, filled glyphs, gradients, or justice clichés like gavels and columns.

Say it like a friend who knows

قلها مثل صديق يفهم

Arabic first

Everyday Saudi (Gulf) Arabic, warm and clear. English is a full equal, plain and professional, never a word-for-word translation.

Show the source

Every figure names its rule; every flag names its article, or says it is our own reading. Say what we could not assess.

No pressure

Many readers have just lost their income. No fear, no false urgency, no countdowns, no "guaranteed".

Before and after, from our own product

✗ Before

"Not satisfied? We refund you, no questions asked."

✓ After

"If we got it wrong, we refund you in full."

«إذا كان الخطأ منا، نرجع لك المبلغ كاملاً.»

✗ Before

"Your score and flags are always free."

✓ After

"The score, the decision and your most serious flag are free with one scan a month."

✗ Before

"Lock in launch pricing."

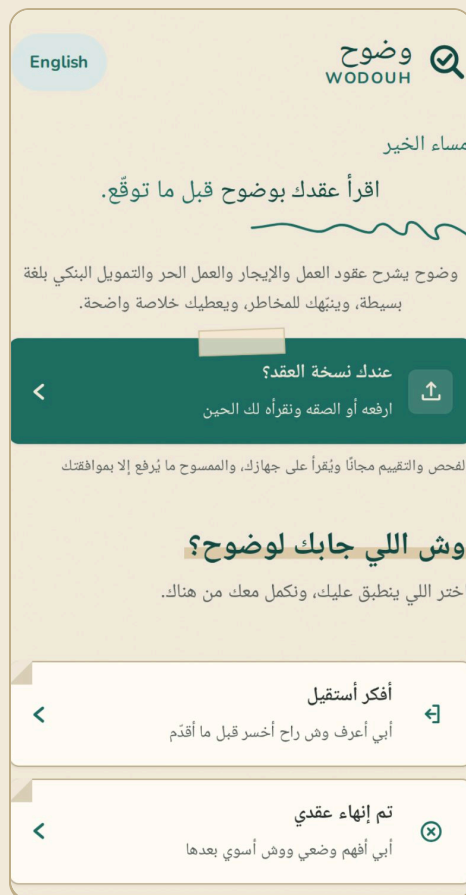

✓ After

"You'll reach a person, not a form. Ask about your situation."

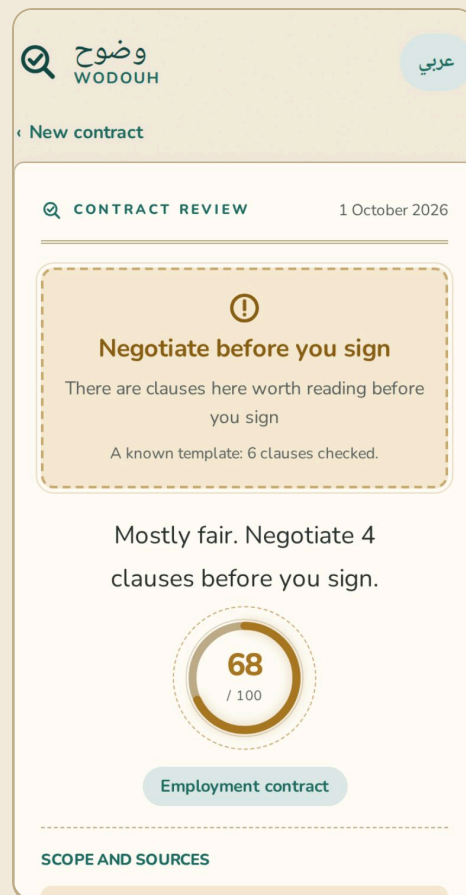

House style: no em dashes and no slashes in copy; commas and full stops instead. Western numerals. "Wodouh is not a law firm" wherever legal content appears.
